

## Hyperlinks

### Image HotSpots

Imagine that you have a detailed picture on your web site. You want the users to be able to click on different parts of the picture to go to different areas of your site. You would do this by creating HOTSPOTS. Here's how:

- Click on the image to select it.
- Click on this tool on the image toolbar: 
- Click and drag your mouse to select an area of the image.
- The CREATE HYPERLINK box will appear when you have finished your shape.
- Type in the address of the site you would like to link to, and click OK.
