

Front Page - Image Effects

TRANSPARENCY:

Use this tool to remove a background of an image so that it blends in with the page background. (This will only work with GIF images, not with JPEG)

- Click on the image to select it.
- Click on the icon to SET TRANSPARENT COLOR on the picture toolbar.

- Click on the area you would like to make transparent.

DYNAMIC HTML EFFECTS

Use this tool to animate your images or words.

- Click on your image or words to select them.
- Click on **FORMAT**, and select **DYNAMIC HTML EFFECTS** from the menu. The DHTML Effects toolbar will show up.

Click here and select **PAGE LOAD**

Then click here to choose an animation effect.

Click the X when you are done.

CROPPING

Use this tool to take part of a picture out.

- Click on the image to select it.
- Click the *CROP* button on the picture toolbar.
- Click and drag any of the dots around the picture to crop part of the picture.
