

Inspiration!

More Tips

1. Link unconnected symbols. Select the "parent" idea. Click on the Link button. You will get an arrow now. Click on the symbol you are linking the "parent" idea to.
2. Change the link colors. Click on the link (arrow) once to select it. Click on the link color button and change it to a different color.

3. Add link text. Click once on the link (arrow). You will see a rectangular box on the link. Click inside the box and type in your text.

4. Select symbols for editing. Pull down the EDIT menu to SELECT ALL. Another way of selecting multiple symbols is to click and drag a box around the symbols you are selecting.
5. Change font, font size and color. Select the symbol(s) and/or links you would like to edit. Pull down the TEXT menu to select a different font, size, style, justification, or color.
6. Change symbol color. Select the symbol(s) you would like to edit. Click on the color button and change to a different color.
