

Inspiration!

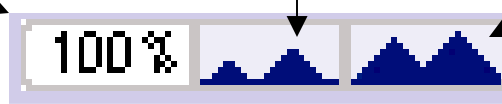

Tips

1. Change the view size of your Inspiration diagram.

Change the percentage of the size.

Zoom out makes your diagram smaller.

Zoom in makes your diagram larger.

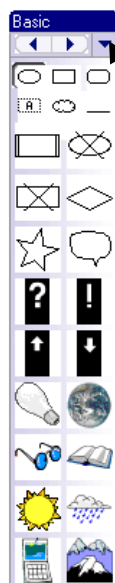

2. Move your whole diagram. Click on the position button and click and drag your diagram around on the screen. Click the position button again to turn it off.

3. Move your symbols around. Click on any symbol to select it (handles will appear around the symbol). Click and drag the symbol to any position on your diagram.

4. Change your symbol. Click on any symbol to select it. Then

choose a symbol from any of the libraries of symbols. Click on the symbol you'd like and it will automatically be replaced.

Click here to select a different library.
