

# Inspiration!

## Using Rapid Fire

1. Double click on the Icon for Inspiration to start the program.
2. Click on the words "Main Idea" to select them and type your main idea there. 
3. Select FILE to SAVE AS and save your new Inspiration document to your Personal Directory.
4. Click on your Main Idea to select it, and then click on the "Rapid Fire" button. A red lightning bolt will appear next to your Main Idea.  
5. Type in your connected idea and press return. Inspiration will automatically add your idea connected to the main idea.
6. To add more connected ideas, continue to type them in and press return.
7. When you are finished adding connected ideas, click on the Rapid Fire button to turn it off.
8. Save your work.
