

# How to Copy Images (pictures) from the Internet

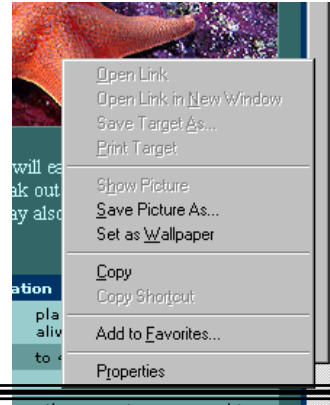

---

---

## Copy and Paste:

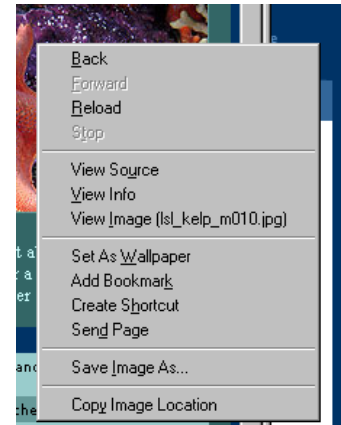

Right click on the image. Select **COPY** from the menu. Paste the image into your document (right click and select **PASTE**).

Or ...

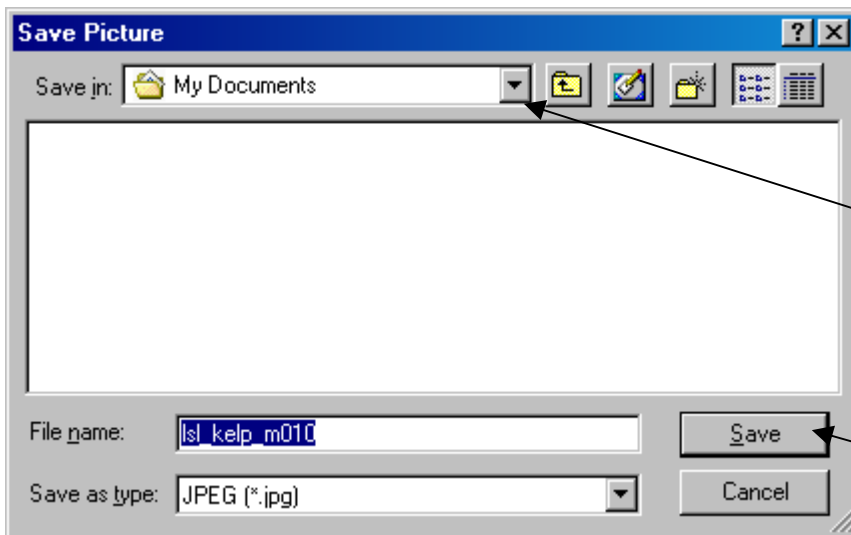

## Saving and Inserting:

Right click on the image. Choose **SAVE PICTURE AS**.

After you have right clicked and selected **Save Picture (Image) as . . .** you will see this box:

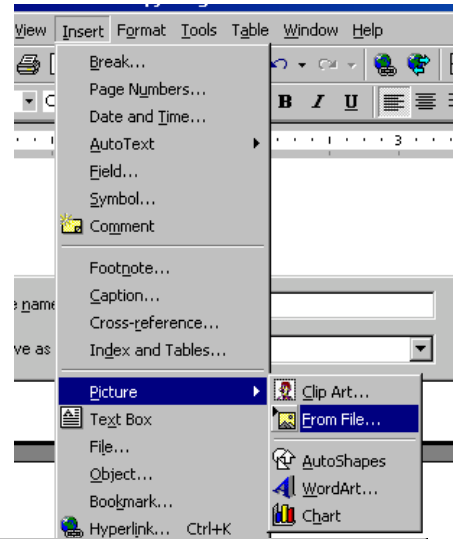

Pull down the arrow and choose your personal directory to save the picture in.

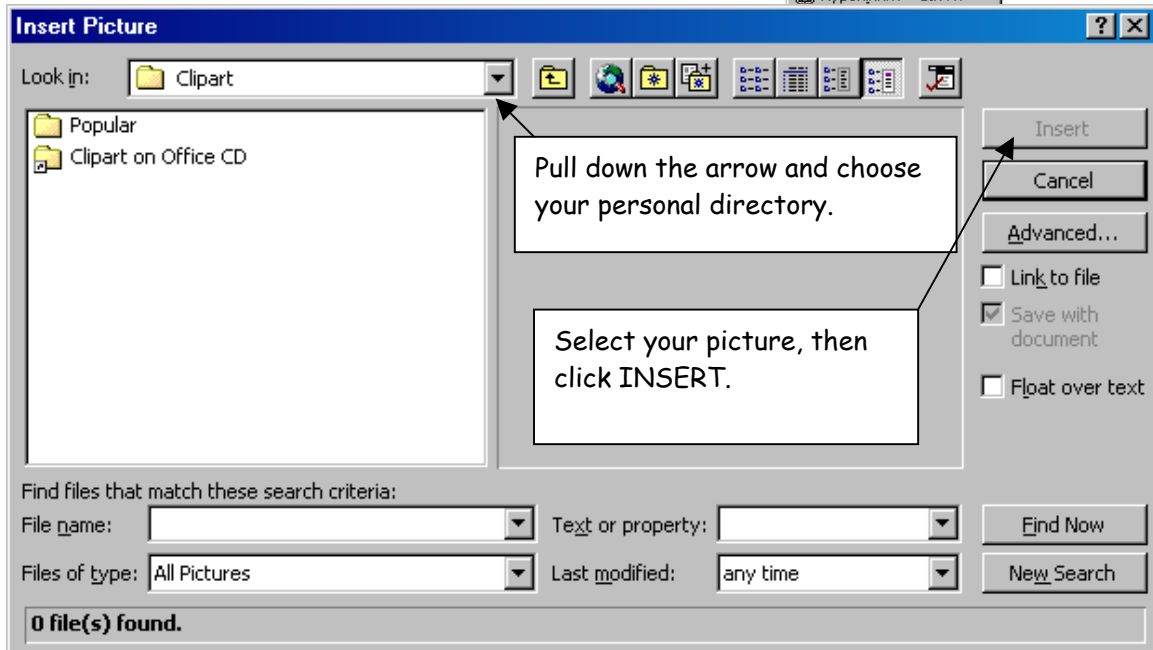

You can give the picture a different file name if you want to. Then click **SAVE**.

To put your picture into Word or PowerPoint:

Go up to INSERT down to PICTURE over to FROM FILE.

You will see this box:

A good source of images is the [Google Image Search](#).
