West Milford Township Schools – Asbestos Notification Compliance

TO: Parents/Guardians, Staff, Students and Members of the General Public

FROM: Bernice Colefield, Superintendent 

DATE: March 10, 2010

RE: AHERA Notifications as per 40CFR 763.93 (g) (4), 40CFR 763.84 (c), 40 CFR 763.93 (e) (10), 40CFR 763.84 (d)

In compliance with the U.S Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA), initial inspections were performed for each of our school buildings for asbestos-containing building materials (ACBM). The inspection findings and asbestos management plans have been on file in each school's administrative office and at a central administrative location since completion of initial inspections and Management Plan.

The EPA requires us to perform reinspections of ACBM every three years. Additionally, periodic surveillances are required bi-annually. AHERA accredited asbestos building inspectors have performed these reinspections. An accredited management planner viewed the results of the reinspections and recommended actions that the West Milford Public Schools should take to safely manage ACBM or assumed ACBM that remains in our buildings. The majority of the ACBM in our buildings are in good condition.

The results of the AHERA reinspections, as well as periodic surveillances are on file within the AHERA Management Plan in the school's administrative office. Everyone is welcome to view these anytime during normal school hours. The Asbestos Program Manager, John Hinck, is available to answer any questions you may have about asbestos in our buildings at (973) 697-1700 x 5071.
